Climate Control Technologies

Dimming Sensors Save More Energy & Extend Life of Lamps

- Save up to 83% in energy over T8 fluorescents with sensor
- Lighting flexibility (*unlike Wattstopper*)
- 3 dimming levels – 100% (off), 80%, 50%
- Can be turned on and off with no warm-up time
- Dims the lights after no motion is detected in aisle for 30 seconds
- Senses shopper movement in a 16 x 16 sq. ft. area
- Lights ramp up to 100% in just over a second
- Extends life of lamp 2-3 years
- Lower maintenance and operating costs
- Available in three colors – black, pearl or grey

*Dimming sensors can be easily added to existing cases as an accessory.
